CER Events June 2014

June 7

Saturday 8am meet at the CER

- **Austin-Bastrop River Corridor Partnership - River Monitoring Trip**
- Join Claude Morris and the Travis County Colorado River Monitoring trip for a day on the river monitoring birds and more, and help the Austin-Bastrop River Corridor Partnership learn more about the ecology of the Colorado River. More about the Austin-Bastrop River Corridor Partnership at the CER website Research, Programs, Partnerships page <http://www.austintexas.gov/page/research-projects-partnerships-and-programs>
- Meet at the CER parking lot at 8:00AM
- A river trip to monitor birds and vegetation along the river and you MUST provide your own boat
- Contact Claude Morris at cgmorris@flash.net to participate

June 10

Tuesday NOON to 1pm at Waller Center, 625 East 10th Street [Between Red River and I-35]

- **Center for Environmental Research Lunchtime Lecture by Kevin M. Anderson**
- 2014 Lunchtime Lecture theme – Nature and the American Mind
- June Lunchtime Lecture: **Biology, Ecological Change, and Native Species**
- Biology emerged as a science in American during the 19th Century debate over Darwin's theory of evolution. That debate between Asa Gray and Louis Agassiz was won by Gray and the evolutionists, but Agassiz popularized biology as a science by urging teachers and students to study nature directly in the field. They and professional biologists surveyed American nature during a time of profound ecological change in America, and their legacy is still found in lists of "native" species whose numbers and distribution were in part the result of the ecological change wrought by the settlement of America. In my June lecture, I will recount the context and impacts of the emergence of biology as a science on our understanding of American Nature.

June 11

Wednesday – NOON to 1pm at Dougherty Arts Center, 1110 Barton Springs Road

- **Center for Environmental Research Lunchtime Lecture by Kevin M. Anderson**
- 2014 Lunchtime Lecture theme – Nature and the American Mind
- June Lunchtime Lecture: **Biology, Ecological Change, and Native Species**

June 14

Saturday 7am-11am and 4pm to dark meet at the CER

- **Hornsby Bend Bird Observatory Program Monthly Bird Survey**
- The HBBO Bird Survey is open to all levels of birder interested in intensive monitoring, although this is not a field trip. In the morning, we have teams covering different areas of the Hornsby Bend facility, and they count numbers of all birds seen. It is 4 hours of hiking and counting, but lots of fun along the way. We meet again around 11am to tally up the species. The afternoon involves looking around for species missed that morning, and we go until sundown. More information about the CER HBBO program at www.hornsbybend.org

June 18

Wednesday - NOON to 1pm at Austin City Hall, Boards and Commissions Room 1st Floor

- **Center for Environmental Research Lunchtime Lecture by Kevin M. Anderson**
- 2014 Lunchtime Lecture theme – Nature and the American Mind
- June Lunchtime Lecture: **Biology, Ecological Change, and Native Species**
- Biology emerged as a science in American during the 19th Century debate over Darwin's theory of evolution. That debate between Asa Gray and Louis Agassiz was won by Gray and the evolutionists, but Agassiz popularized biology as a science by urging teachers and students to study nature directly in the field. They and professional biologists surveyed American nature during a time of profound ecological change in America, and their legacy is still found in lists of "native" species whose numbers and distribution were in part the result of the ecological change wrought by the settlement of America. In my June lecture, I will recount the context and impacts of the emergence of biology as a science on our understanding of American Nature.

June 21

Saturday – 730am – 11am at the CER

- **HBBO/Travis Audubon Society - Hornsby Bend Monthly Birding Fieldtrip – FREE!**
- Meet at the CER 730am, no registration needed – all levels of birder welcomed, an easy morning of walking and learning the birds of Hornsby Bend. Bring binoculars and some water if the weather is warm. More information at www.travisaudubon.org and www.hornsbybend.org

June 28

Saturday 9am – 1pm at the CER

- **Ecological Literacy Volunteer Day and Potluck Learning** – Help maintain Hornsby Bend! Did you know that all the Hornsby Bend trails, habitat gardens, and kiosks were built and are maintained by volunteers? If you enjoy birding or walking along the Colorado River here, please join us in maintaining these amenities and supporting public access at Hornsby Bend.
- Wear work clothes [long pants], hat for shade, and sturdy shoes; bring water and binoculars if interested in birds.
 - **NOON POTLUCK LUNCH AND More ECOLOGICAL LEARNING** - Bring food for our potluck lunch at NOON and learn more at a presentation on ecology during lunch.
